Report of Principal and School Improvement Council

Denmark-Olar Middle School is located in a small, rural town in Denmark, South Carolina. The school is a Title 1 school that is federally funded and is the recipient of the School Improve Grant that is in the third and final year. These funds and allocations, in accordance with our school transformation model, have proven to be very beneficial in our efforts to promote student achievement, accountability, and attendance – turning it all around.

We expect great improvements under the direction of our superintendent, Dr. Thelma Sojourner. The stakeholders of our school have bought into the vision our leader has provided. The most notable and positive improvement for our school has been student achievement. The students made overall gains in all core curriculum areas that were tested on the 2012 Spring PASS assessment. Several programs directly linked to math and English have been implemented and students have shown growth in both areas. Students have also made substantial progress in science and social studies.

The new school year clearly indicates that students are very capable and eager to learn. Special emphasis is placed on maintaining the progress students have made and excelling in all core academic areas. Common Core will continue to be integrated into the curriculum and the use of technology will be extended. Clearly, the faculty and staff are doing everything they can to ensure that all students are equipped to complete the 2012-2013 school year successfully.

ESEA/Federal Accountability Rating System

In July 2012, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/eSEA/> or request this information from your child's district or school.
